

Now available for US and EMEA

CELLweaver RX amplifies your mobile networks signal for even better signal quality and exceptional range.

This clever twin amplifier combines 2 amplifier devices into one. Increase the range where you profit from higher mobile network bandwidth with simultaneous lower cost compared to common satellite network solutions.

In continuation to our CELLweaver SC, the CELLweaver RX takes the unusual yachting needs into consideration and is therefore equipped with a ship mode.

USER BENEFITS

- High internet speeds in coastal regions and beyond (upto 22nm)
- amplifies the down- and uplink
- ship mode - designed for the special conditions at sea
- LCD with status information for easy overview

INSTALLER BENEFITS

- Twin amplifier needs half the rack space - 2HU instead of 4HU
- Can connect one or two CELLweaver SC
- Reduces signal loss
- Fully automatic - plug & play
- Remote monitoring

ADDITIONAL FEATURES

- Automatic High power shut off
- All operators
- Also suitable for land-based installations

FRONT PANEL

- 2 LCD for status information and setup
- one for each built-in amplifier

BACK PANEL

- 2 n-connectors
- 2 LAN connectors
- 2 power connectors
- 2 power switch
- 16 sma connectors

DIMENSIONS

- Height = 2HU
- Width = 448mm
- Depth = 310mm
- front panel = 480mm
- handles = 40mm
- weight = 5,5kg
